

Patient Positioning Device and Surgical Table Accessory Repair

We provide Quality Clinical Equipment Repair

At Optimum Surgical, it is our mission to partner with healthcare facilities to better maintain clinical equipment in a cost effective manner. We are dedicated to providing reliable, quality repair services that significantly reduce costs and increase clinical efficiency while providing unparalleled service. Using only quality replacement components, we ensure that all devices perform as intended giving you the peace of mind you deserve.

Optimum Surgical has the expertise, parts and capabilities to keep your patient positioning devices and surgical table accessories functioning as intended. From pad repair to hydraulic cylinder replacement, Optimum Surgical can rejuvenate your positioning devices and operating table accessories, saving you significant time and money. Whether it be reactive repair or comprehensive proactive preventative maintenance, you can avoid astronomical replacement costs by utilizing Optimum Surgical for all your repair and maintenance needs. All repair and replacement components meet or exceed manufacturer specifications and preserve OEM form, fit, and function.

Free Estimates. Free estimates available for all patient positioning device and surgical table accessory repairs.

Satisfaction Guaranteed. We offer a 100% satisfaction guarantee for all patient positioning device and surgical table accessory repairs. If you are not completely satisfied with the quality and/or workmanship of your repair(s), Optimum Surgical will fix or replace the item(s) free of charge.

Quick Turnaround and Reduced Downtime. Most patient positioning device and surgical table accessory repairs are completed in 3 to 5 days.

Cost Savings. Customers who utilize Optimum Surgical for patient positioning device and surgical table accessory repairs realize savings between 20% and 75% over OEM replacement costs.

Preventative Maintenance. Optimum Surgical offers preventative maintenance programs that reduce the frequency and severity of repairs and extend the life and lower the costs associated with maintaining surgical table accessories and patient positioning devices.
